

Opticool Antifreeze Blue 50%

Ready to use monoethylene glycol based antifreeze

Product code: D021

Product Description:

Opticool Antifreeze Blue 50% is a universal engine coolant suitable for all year round usage. This product is pre-diluted and is to be used as supplied.

Opticool Antifreeze Blue 50% is manufactured from pure monoethylene glycol, anti-corrosion additives, inhibitors and diluted 50% with water. It has been specially formulated to be truly universal in its application. It provides a high degree of corrosion protection for all engine cooling systems whether they are predominantly of aluminium or ferrous construction.

Opticool Antifreeze Blue 50% contains a bittering agent to prevent accidental consumption.

Benefits:

- Meets and exceeds BS 6580: 2010 specification
- Excellent corrosion protection
- Protects against overheating
- Protects against freezing
- All year round usage
- Suitable as a summer coolant
- Ready to use

Application:

Opticool Antifreeze Blue 50% is suitable for all year round usage in automotive and commercial petrol and diesel engines and certain industrial applications.

Product Specification

BS	6580: 2010
ASTM	D3306 D4985
SAE	J1034
Freezing Protection Temperature	-40°C

Health & Safety:
