Excelform 911

Mineral oil based metal forming oil

Product code: F004

Product Description:

Excelform 911 is a highly refined, heavy viscosity metal forming oil.

Excelform 911 is manufactured from solvent refined paraffinic mineral oils, which exhibit excellent oxidation stability, combined with high levels of chlorinated extreme pressure and lubricity additives.

Excelform 911 will not stain yellow metals.

Benefits:

- Thicker viscosity provides high film strength at the metal surface
- Good surface finish, without cracks or deformations
- Non staining

Application:

Excelform 911 is suitable for a wide variety of metal forming operations including tube drawing, and problematical threading operations on high tensile steels.

Typical Test Data:

Specific Gravity @ 20°C	1.024
Kinematic Viscosity @ 40°C (cSt)	128.4
Flash Point COC (°C)	228
Colour	Yellow
Appearance	Clear and bright

Health & Safety:

Please refer to the safety data sheet, a copy of which is freely available to all of our customers.
