

Excelmould 320

Mould release oil

Product code: P062

Product Description:

Excelmould 320 is a premium mould release oil containing very high quality synthetic base fluids and highly effective, chemically active release agents.

The optimised level of release agents provide excellent mould release properties and result in attractive concrete surfaces free of blowholes, chips or other blemishes.

Benefits:

- Optimised viscosity for easy application
- Contains high levels of release agent
- Clean separation from moulds
- Excellent surface finish
- Bland odour

Application:

Excelmould 320 is recommended as a release agent for use on mass production concrete sections on wood, steel, plastic or rubber moulds. It should be applied by swab, brush or spray and should be applied liberally.

Typical Test Data:

Specific Gravity @ 15.6°C	0.840
Kinematic Viscosity @ 40°C (cSt)	20.0
Flash Point COC (°C)	230
Appearance	Colourless/pale yellow
